

SIR LAWRENCE BRAGG LAIDS COUNCIL'S WORK

Canada Leads Field in Certain Branches War Research

Medicine For Aviation,
Radio Location, Among
Scientific Specialties

OTTAWA, Sept. 5.—(CP)—Canada, having confined herself to certain definite lines of wartime research, now ranks as second to none in these fields, Sir Lawrence Bragg, scientific liaison officer between Britain and Canada, said last night.

An observer at the Canadian Research Council for the past six months, Sir Lawrence said the fields in which Canadian scientists are outstanding are aviation, medicine, radio location, chemistry and naval work of the admiralty.

"We are always under the obligation to be vague because in the case of war the greatest security must be maintained," he said apologetically. "But a wonderful story will be written after the war about Canadian war scientific work."

LOSS TO WORLD
The late Dr. Sir Frederick Banting played a strong group in aviation medicine, Sir Lawrence said. "They were very remarkable work and of course it is being carried on, but the loss of Dr. Banting is one to the whole world of science."

Radio-location Sir Lawrence described as "almost another distinct arm of the service, like signals."

"This service is expanding almost more rapidly than any other and will take in thousands of technicians in the United States alone who are planning on having something like 100,000 men in this field."

Many problems are dropped into the laps of Canadian research workers to solve for the British admiralty.

"By confining all her energies to a limited number of vital fields and leaving everything else to the rest of the world," Sir Lawrence said Canada had rendered a most invaluable service to the allied cause.

MUST MAKE GEAR
"More and more gear and instruments must be made in Canada," Sir Lawrence predicted. "It's no good designing gear, screws, gauges and instruments in England for Canadian and American built planes and machinery and then having to ship them to Canada and material for Britain to have the whole job finished up here."

In the field of aviation medicine, the problems involved were those of making flying conditions as normal and comfortable as possible.

"Did bombing present problems of speed and acceleration which must be met?" he said. "Here Canada is doing some of her finest work."

Lone Nazi Raider Hits Scottish Town
LONDON, Sept. 5.—(CP)—A lone German raider dropped several bombs on a coastal town in north-east Scotland today, demolishing some shops and injuring several persons.

Earlier, the Air Ministry said a bombing plane of the Coastal Command attacked the coast of Britain last night, while another dropped explosives on a factory at La Pallice in occupied France.

"There were no reports of Royal Air Force operations over Germany during the night but Nazi sources at Berlin admitted German planes roared over Germany and claimed a Red air attack on Berlin was beaten off."

(Berlin was under an air raid alarm for several hours, according to a dispatch from Berlin, Switzerland, which was cut off from Berlin by telephone and telegraph for the duration of the alert. Berlin radio stations also went dead, suggesting a strong attack.)

The population of Louisiana increased from 2,110,561 in 1930 to 2,355,821 in 1940.

Churchill Kin Killed

Lady Edward Spencer Churchill, about, great aunt of Prime Minister Winston Churchill of England, was killed and her daughter, Lady Cowdray, seriously injured Sept. 4, when their auto left the road and crashed into a tree near Cobham, Surrey.

Japan Refuses To Negotiate With Kai-Shek
TOKYO, Sept. 5.—(AP)—Japan has not changed her attitude on any third power negotiations for a settlement of the "China affair," and Premier Prince Komei's 1934 declaration that Japan would not deal with Generalissimo Chiang Kai-shek still stands, a government spokesman said today.

At the same time, Domei news agency received in a broadcast the suggestion of Dr. Kuusuvuori, professor of international law at Meiji university, that Japanese territorial waters be extended to include United States shipments to Russia via Vladivostok.

Dr. Suzuki originally made the suggestion Aug. 30 in the newspaper Kokumin.

He said seizure of ships violating territorial waters would be legal and extension of territorial waters under special conditions a principal followed for example by the United States in prohibited days in establishing a 12-mile limit.

CLAIMS ITS LEGAL
Japan already has made representations to the United States regarding the shipment of supplies to Japan via Vladivostok.

A government spokesman said today that reports Soviet freighters might go to Manila to pick up supplies and return to Vladivostok along the Asiatic coast said he could not say whether such a practice would make a difference in the Japanese attitude.

Legislation respecting Old Age Pensions was first adopted by the Dominion government in 1927.

Dr. Roosevelt dismissed as hypothetical a question on how he would classify the Greer incident as regards "a shooting war."

RECOGNIZE NO ZONE
To an inquiry whether it was possible for a ship to be on the American side of the Atlantic and at the same time in a belligerent zone proclaimed by Germany, the President said United States never had been notified of establishment of such a zone. A blockade is never recognized, he added, if it is ineffective.

To a further question, whether the Greer had behaved in accord with instructions and policy in dropping depth charges immediately, the President suggested there was no information to the contrary. He asked his question or what he would do if attacked.

The President himself brought up an attack on the Greer, opening his press conference, telling reporters that he knew they would all be asking about it. He whistled for a moment first the name of the ship, then the name of the father, what he said was an allegorical story.

One upon a time, at a place where we were sailing, Mr. Roosevelt related, some country children were on the way to school and some unknown person fired at them from the bushes. The father took the children and they went home, he said, no reason to search the bushes or take any other steps, because the children had not been hit.

"Is any search of the bushes beyond the duty of the President?" he asked.

He responded, in other words, the United States was not going along with the father of the child. He might as well say that the school teacher (meaning the President) was looking into the bushes.

After answering in the negative a question whether the attack of the Greer had resulted in any change in order to American naval vessels, the President said he might as well say that the school teacher (meaning the President) was looking into the bushes.

Funny Business

"He's an isolationist!"

Suspension Nazi Broadcasts Gives Heckler Clear Channel

NEW YORK, Sept. 5.—(AP)—Sudden suspension of Germany's domestic broadcasts over the Deutscher-ender was reported last night by the BBC, which said the interruption came "apparently because some numbers were above."

The BBC, as heard here by CBS, reported also that the suspension cleared the air for the new familiar becker on the Deutscher-ender, which was long length, permitting him to tell the German people without interruption that Nazi losses in Russia amounted to 2,000,000 men and that the blitzkrieg had failed.

The circumstances gave a new twist to the battle of the German airwaves waged nightly between the Nazi announcers and the ghost voice which breaks in on the pauses in their broadcasts with anti-Nazi remarks.

It usually is a duel of words but, when the Deutscher-ender shut down, the heckler had the German air to himself, and said, as translated by BBC:

"The German losses in Russia amount to 2,000,000 men. The blitzkrieg has failed. The German army is bleeding to death. Hitler must be got rid of. Germany must lose to Britain, Russia and the United States."

It represented the initiative of a single isolationist outburst which it presaged the beginning of an intensified undersea campaign that would respect no nationality in the North Atlantic shipping lanes.

ORDERED TO SHOOT
Upon the occupation of Ireland early in July the President issued orders to the navy.

They were taken to insure the safety of communications in the approaches between Ireland and the United States, as well as on the seas between the United States and all other Atlantic countries.

However, part of the ocean that must be traversed to reach for land lies within the Nazi-designated war zone which Germany extended westward along the coast of Greenland. The United States does not recognize the German right to prescribe such a zone, but the navy has posted the waters as dangerous.

In fact, Hitler on three different occasions this year has given notice in his speeches that his U-boats would torpedo any ships that came between their periscopes and the shore.

AXIS SHIPS HOSTILE
Ever since operations of the navy's Atlantic patrol were dispatched early this spring, Axis capitalists have been hostile in their action, Berlin, Rome and even Germany have found occasion to condemn the patrol variously as provocative, near-belligerent, and an invitation to incidents.

When Mr. Roosevelt announced the patrol was operating, he said it was a defensive measure and that its mission was to guard the approaches of the United States by keeping a watch on Axis submarines or surface raiders which might be hostile to the North Atlantic.

However, in radiating American vessels of the Atlantic, the belligerent craft, they have automatically informed British vessels all friendly shipping of the raiders whereabouts.

RAIDERS BY RAIDER
Last May Grand Admiral Erich Raeder of the German fleet assailed this method of operations, saying that it "aggravates conditions already has been established."

He (the commander) faces it as the case just as in the case of convoys an actual warfare act and is justified in the use of the naval rules of war to demand cessation of hostile actions by the ship involved and if necessary to enforce it with arms.

King's Appeal Underlined By U-Boat Attack

Continued from Page One

Editorial in the Daily Express said that the U-boat attack on the King was "a particular title" to make "a special appeal" to the United States to undertake a fresh and more specific commitment towards Britain.

Canada with the Atlantic dividing her from the battlefield still realized the "fury of waiting passively for our turn to come," the paper said. "We think the same logic applies to the United States."

Today a German torpedo put the case with "inevitable force," the Daily Express commented. "Whatever the opinion may be in the United States, this is the sort of bold talk which renders as straight from heart to heart."

PLAIN TALK FROM CANADA
The Daily Telegraph, in an editorial headed "Plain talk from Canada," noted the Prime Minister's declaration "it requires all the strength of free people can muster" to keep the conflict from the Western Hemisphere, and that "Britain cannot win the war unless greater aid than yet has been sighted and committed."

The Times said the passage where Mr. King said: "We face today battles not of nations but of civilizations."

Work Slowed Before Strike Probe Is Told

By D'Arcy O'Donnell, CHICAGO, Sept. 5.—(AP)—Aluminum Daria, a service department, was notified Friday before a Royal Commission investigating the cause of a five-day strike last July at the Aluminum Company of Canada plant at nearby Arvida that on the eve of the walk-out there was a marked "slow-down" in the work.

Daria, also president of the National Catholic Syndicate of Aluminum Workers, said that on July 23, the men loaded only one car of aluminum, four less than on ordinary days.

The next day, Daria said he told his superintendent that "work had slowed down considerably and that there was discontent among the workers. I asked for advice about the thing he repeated that day. On the 24th, the day of the strike, 'they didn't work much faster than the previous day.'"

Daria, testifying that during the strike he never acted as a syndicate official but simply as a private citizen, said he did not know anything about the strike until it broke out on the 24th. He said the steps the syndicate had decided to take that night.

TO CALL MEETING
He explained that several days before the strike the syndicate had decided to call a meeting July 24, if the company had not replied to its demands, to ask for an arbitration board.

When the strike began, Daria said he finished his work and went home as usual. That night, A. C. Johnston, works manager at the plant, telephoned him and said something to save the rest of the pot line in the plant and to talk to the strikers. Johnston said he was the syndicate executive what I should do was to tell the strikers if I spoke to the men the syndicate might be dragged into the strike.

"I suggested to Johnston that the men be paid the \$1.00 an hour they asked until such time as a contract was reached," he said.

Later that night, Daria said, about 12 strikers visited him and that the strikers were getting ready to go to work. He said he was getting through to them. They said someone had to take charge. I said I was not a syndicate official. I couldn't do anything but that as a private citizen I could help on the condition that the men accept me as being in charge and that not a bit of money would be paid.

The strikers accepted his condition, Daria said, and I organized pickets especially to prevent liquidation from getting in to the workers.

CALLED TO PHONE
The same night, he testified, he was called to the telephone by R. S. Campbell, Dominion government labor mediator who later flew to the scene in an attempt to settle the dispute.

"Mr. Campbell said that if Hitler knew what was going on at the plant, he would be very proud. He said that the only thing he was to return to work."

He said that the only thing he was to return to work."

He said that the only thing he was to return to work."

Youth Is Warned May Have Fight

PITTSBURGH, Sept. 5.—(AP)—Mrs. Franklin D. Roosevelt told an audience in Syria Mosque last night that before the youth of the United States can recognize the type of world in which their ideals may be met, they must first have the "meet force with force."

"They must realize they live in a world under the very grip of the perilous power," she said.

Ninety-ninth of the world's production of potatoes is grown in Europe.

R.A.F. Has Enough Pursuit Airplanes To Prevent Invasion

BUFFALO, N.Y., Sept. 5.—(AP)—The Royal Air Force now has enough pursuit airplanes to withstand any German air-raid attack, Arthur L. Forsyth, Bell Aircraft Corporation service manager, said yesterday in return for the seven-week visit in England.

The R.A.F. has built up its air force and they're extremely confident, but so, that they can knock the Germans out of the air," he said.

In Greece and Crete, acting as Deputy Adjutant General, and as a General, and Brig-Gen. E. M. Miles, who was in the Royal Engineers in Ethiopia.

The men will remain here until they are transferred to other posts or sent to British Colonial possessions to recuperate from the rigors of fighting.

Douglas Hall, 20, said 30 of his friends who had been in the 13th Grenadier Guards were killed when the German bombers attacked and sank the ship. He said that the ship was miraculously announced May 27 one of the ships officers and 150 other crewmen were killed.

The Kashmiri was engaged in creating caissons during German troops.

We were four hours in the water," added John Black, 19, a former Kashmiri survivor. "The Jersey was in the water while we were swimming."

Thrift BUILDS SHIPS!

Where does the money come from to wage this War—to build the ships, the planes and tanks we need to "finish the job?"

Much of it comes from the savings of ordinary men and women—the thirty people of Canada—the savers. Those are the people who buy Victory Bonds and War Savings Certificates, who pay their War Taxes on the lot. Never before has personal thrift been so vitally necessary. Watch your spending. Every dollar you can spare is needed now to arm and equip our fighting forces—to win this War.

This Book will help you save. The Thrift Book Family Budget Book shows you how to budget your income, how to save a little every week, how to save a lot every month.

Smaller Plots To Get Defence Work Contracts

WASHINGTON, Sept. 5.—(AP)—President Roosevelt created a division of production management in the office of production management today to spread defense contracts among smaller plants.

It was first proposed by U.S. Assistant Secretary of War, John D. O'Donnell, New York, president of Atlas Corporation, large investment firm, was appointed director of the new division.

As the president acted, his whole defense program came under fire of Bernard M. Baruch, one of his chief consultants and head of the industrial mobilization in the First Great War.

Baruch, after detailing his views the president at a luncheon conference last night, said that the defense program was a single administrator, and in addition, a market maker over all prices.

Alberta District News In Brief

Lacombe Wheat

80 Per Cent. Cut
Fully 80 per cent of the grain in the Lacombe district has been cut, it was revealed by a survey made Wednesday. Thrashing has already started on many farms and is expected to be general by the middle of next week. Yields have been quite satisfactory, according to the fact that crops in this area were subjected to three weeks of intense heat during the past summer. Archie Churchill and Lloyd Blomfield brought in the first loads of this season's wheat to local elevators.

We See By The Weeklies

REVELER—Editor of the Border Independent thinks that Mr. Albert "carries his age well." The editor gained the opinion after meeting Alberta's premier on a recent train trip when the latter was found literally surrounded by admirers going home on leave, and school-boys on holiday. In answer to the premier's query re smoking, the editor said "You have to become accustomed to it. I think it is a little too late for you to start now."

PONOKA—Warning to children regarding traffic dangers as the new school term approaches, was issued in the latest Herald. Cooperation of parents in advising children to "stop, look, listen" was urged.

PROVOST—Mr. and Mrs. Tom Stewart celebrated their wedding anniversary this week, according to the Provost News, and another popular district couple took the first step towards enjoying a similar anniversary. George Keller, son of Mr. and Mrs. Adam Keller, and Miss Anna Ruth, eldest daughter of Mr. and Mrs. Joseph Ruth of Western Ridge, joined hands in matrimony.

BANHAM—Monthly ration of cigarettes and tobacco to Banham men on active service overseas has been shipped, says the latest Banham Star. Numerous acknowledgments of previous shipments have been made.

School Improved

The main building at the school has had a new coat of stucco, and a new modern fire escape has been added. The general shop building has been enlarged by an addition which will double the floor space.

LACOMBE—John McElroy, who attended high school at Lacombe some years ago, has crashed Hollywood in his own way—as a valetier. He is now the valet of his recent job, while employed in a large Hollywood garage, was to point the \$3,000 car of Ruby Keller, and he has done many points on cars owned by many other stars.

Horror Farmer Helpless As Tractor Runs Out Of Control

August Cerveny of the Hazel Hill district is recovering from a most unusual accident. Driving his tractor into the garage following a recent day's work, Mr. Cerveny was scarcely out of the building, when on hearing a noise, looked back to find the tractor rapidly moving toward him.

Fearing damage to the engine, as the garage is situated on a steep hill, he attempted to grasp the wheel and gain control. Losing his footing, yet unable to let go for fear of being thrown under the wheel, he held on until the hard race it seemed certain he would be crushed against a waiting tractor. On attempting to throw himself clear, his clothing caught, hurling him into the tractor. From wheel passing over one foot.

Boards and sticks under the weight of the machine, were split and sent flying, adding to the peril of the man pinned underneath. On reaching the foot of the hill and while passing over a hole the farmer was dropped off and the tractor proceeded for a short distance under an opposite hill.

Red Deer To Have Recreation

Ottawa Authorizes Use Of Building

Hut For Men On Active Service

The city of Red Deer this week purchased a building which will be used up as a recreation hut for men in active service forces. City Council at a special meeting Tuesday approved the action of the commissioners in acquiring an option on the building and passed the order for the purchase of the building for \$20,000. It was also agreed to lease the building to the Knights of Columbus for the period of the war and three months after, at a rental of \$100 per month.

Lloydminster Airman Receives Award For Flight Proficiency

Making an average of over 90 per cent in examinations in signalling, air engines, navigation, theory of flight, air frames, airman's armaments, in addition to practical work up above the clouds, LAC Stewart Haynes, son of Rev. and Mrs. F. J. Haynes of Lloydminster, was awarded the Madore trophy for general proficiency when No. 19 flying school at Virden, Man., held its graduating banquet, according to word received here.

The trophy was donated by Flying Officer "Andy" Madore, in memory of his brother, Geoffrey Madore, Pilot Officer, who was killed in action over France last year.

Before accepting the award, the donor went up as a passenger with Haynes as pilot, to make sure that the winner could "do himself more than pass examinations." The actual trophy remains at the Virden base.

Gleaned From Rural News

RED DEER—Squadron Leader L. A. Sewell, who was officer commanding No. 24 Manning Depot, R.C.A.F. at Penhold, which was taken over by the Royal Air Force, has moved to Edmonton where he has joined the staff of No. 3 Manning Depot, R.C.A.F. Most of the officers and staff from the Penhold school went to the Edmonton training school.

FERNBROOK—Rev. Ernest Armstrong, M.A., president of Canadian Nazarene College, and the College Quetzette leaving the province, held a "house" meeting at the local Nazarene church Tuesday evening.

LACOMBE—Miss L. Walker of Lacombe suffered a badly shaken right leg and wrist while driving the car she was driving went out of control and turned over in a ditch here. Two children in the car were not injured.

BANHAM—Mr. and Mrs. G. H. Smith left for Victoria, B.C., where they will spend the next seven or eight months. Mr. and Mrs. G. H. Smith of Prince Rupert, B.C., are going to spend some time with their daughter, Mrs. N. McLeod, and Mr. and Mrs. W. Hobbs of Solon, Kansas, are on a short visit to the R.C.A.F. as soon as the school term was completed.

STEWART—A graduate of the Lloydminster high school, during one of four last year's graduates who were awarded the Madore trophy for general proficiency when No. 19 flying school at Virden, Man., held its graduating banquet, according to word received here.

Horror Farmer Helpless As Tractor Runs Out Of Control

August Cerveny of the Hazel Hill district is recovering from a most unusual accident. Driving his tractor into the garage following a recent day's work, Mr. Cerveny was scarcely out of the building, when on hearing a noise, looked back to find the tractor rapidly moving toward him.

Fearing damage to the engine, as the garage is situated on a steep hill, he attempted to grasp the wheel and gain control. Losing his footing, yet unable to let go for fear of being thrown under the wheel, he held on until the hard race it seemed certain he would be crushed against a waiting tractor. On attempting to throw himself clear, his clothing caught, hurling him into the tractor. From wheel passing over one foot.

Boards and sticks under the weight of the machine, were split and sent flying, adding to the peril of the man pinned underneath. On reaching the foot of the hill and while passing over a hole the farmer was dropped off and the tractor proceeded for a short distance under an opposite hill.

LACOMBE—John McElroy, who attended high school at Lacombe some years ago, has crashed Hollywood in his own way—as a valetier. He is now the valet of his recent job, while employed in a large Hollywood garage, was to point the \$3,000 car of Ruby Keller, and he has done many points on cars owned by many other stars.

Red Deer To Have Recreation
Ottawa Authorizes Use Of Building

Hut For Men On Active Service
The city of Red Deer this week purchased a building which will be used up as a recreation hut for men in active service forces. City Council at a special meeting Tuesday approved the action of the commissioners in acquiring an option on the building and passed the order for the purchase of the building for \$20,000. It was also agreed to lease the building to the Knights of Columbus for the period of the war and three months after, at a rental of \$100 per month.

LACOMBE—John McElroy, who attended high school at Lacombe some years ago, has crashed Hollywood in his own way—as a valetier. He is now the valet of his recent job,

If you are such a person as like to bet something with fairly low odds, you might give serious consideration to putting a quid or two on the Vancouver Grizzlies to win the Western Conference title this season.

For years I have dreamt faithfully along with the Winnipeg Bombers. They are generally favored to win western honors again this fall, but just now there are only two things that might stop them—the Grizzlies and the Edmonton Eskimos as a remote possibility.

Don't laugh too heartily about the Eskimos' chances and don't think that I've blown a gasket on one job of my brain. The Edmonton squad has not had their championship challenge accepted and I rather suspect that the conference teams have no desire whatever to tangle with Bob Fyfe and his playmate for the western title. The conference teams will have been through 12 tough battles that will have reduced their effectiveness at least 25 per cent by injuries while the Eskimos would be right in the pink. On paper the proposed Edmonton team appears to have a lot of what it takes to win games.

The Eskimos are still marking time while they await definite word as to whether or not their challenge for the western championship will be accepted.

Winnipeg still has a lot of high powered football talent in Bomber line. They should be able to smother out the Regina Roughriders with out very much trouble. Vancouver Grizzlies will present an altogether different problem though. Coach Greg Kabat, the robust and acholically mad rancher, has assembled an impressive array of gridders. Under Coach Greg's boys have slipped, they will give Winnipeg's Bombers a terrific mauling around.

If you want to see the Western Conference final, start figuring out a good excuse for a trip to Vancouver.

Hockey Pout-Down Called

On September 10-12 next Wednesday—the Canadian Athletic Club is sponsoring a smoker in the Maumee Temple with the object of bringing together the scores of citizens who are selling each other their day that something might be done about a covered hockey rink for Edmonton this winter.

The affair will be just a good old western pout-down at which every kiddie buck can rise and speak his mind on the subject. It is hoped that some definite move may materialize from this general discussion. If you have any ideas, it is on hand to air them. The Canadian Club is sponsoring the palaver since no other organization seems willing to do anything just now. Tickets may be obtained from Smythe Fleming at the Detroit Men's Shop or Ken Hearn at Andrew Marshall, the optometrist.

Encore at Elk Island Park

If buying war savings stamps will drive nails in Nazi coffins, there will be a lot of hammering done next Sunday when the Elk Island National Park golf course stages another tourney under the able and popular supervision of Leroy Goldsworthy.

Some weeks ago a journey was held at this course with all proceeds being given away in the form of war savings stamps as prizes. It was so successful that Leroy Goldsworthy has been swamped with demands to arrange another. Goldy has obliged. All you have to do is take a walk at the Nazis is to shoulder your golf clubs and get your entry on the line at Elk Island between 9:00 a.m. and 2:30 p.m. this coming Sunday.

Western Champs Rebuilt

Threlfall Expects Tough Time For Bombers This Fall

WINNIPEG, Sept. 5.—(CP)—Drilled spring, summer and fall, Winnipeg Blue Bombers, with a shiny backfield and perhaps the fastest attacking wingline in Canada, don't figure on coasting to their fifth straight western football championship.

"I figure it will be a wide open race until the last week and then the team that has the toughest to the final drive will win," said coach Reg Threlfall. He expressed the belief the other teams in the western interprovincial football union, Regina Roughriders and Vancouver Grizzlies, will have strong squads.

The 12-game schedule opens here tonight when Bombers tackle Dean Griffing's Roughriders, using a squad remodelled to offset loss of several veterans.

In two pre-season exhibition games against Columbia-Built, America's professional league champions, Bombers coasted to a 16-0 victory in the opener but lost 14-0 in the second.

PIGSKIN TIME AGAIN ON PRAIRIES

Western Conference Opens Tonight

Frank Coulson Busy Man

Red Deer Club Lays Plans For Coming Hockey Campaign

RED DEER, Sept. 5.—Frank Coulson, coach and manager of the Red Deer Buffalo Senior Hockey Club, is busy these days lining up players for his team.

This week he is reporting signs of a pair of smart forwards in the persons of Bob Fyfe and "Al" Newman. Fyfe was with the Winnipeg Maple Leafs last season and is a fast left-winger. He played under Coult at Olds for two years. Newman was a right-winger with Edmonton Flyers last winter.

These two players will flank David, formerly with Edmonton Athletic Club who was signed last month. David was with Olds Flyers two years ago. The Red Deer coach also has Davey Pow on contract as goaltender for his club. Pow has performed with Lussier in Drumheller. Miners and Edmonton Flyers. "King" Carl Sirokowsky, of Lethbridge, will be under contract for Pow.

Walter McFetridge, last year with Edmonton Flyers, also signed to play for the Buffalo Club. He was with North Battleford Beavers in the 1938-39 season. Coulson has handled them, again two years with Saskatoon Quakers and a season with Regina Capitals.

A Sylvan Lake boy, Harold Bergstrom, is another player signed by the Red Deer coach. He showed up in a game with the team and made a fine showing with Nelson Juniors during the past four weeks.

With these players already signed to play for his team, Coulson has the makings of a strong sextet. He is negotiating with other players and promises to turn out a team which will hold its own when the Alberta Hockey League gets under way.

ARENA CAPACITY BEING INCREASED

RED DEER, Sept. 5.—Work is going ahead steadily in the Red Deer arena getting it in readiness for the opening of the senior hockey season. The coming season will be the first time that Red Deer has been represented in Alberta senior hockey.

Frank Coulson, coach and manager of the Red Deer Buffalo, having leased the arena for a four-year period is having the seating capacity enlarged. All the old seats have been torn out. On the west end, where the old seats were, a new set of seats have been built on cement blocks and work is proceeding now on the east side.

All the front section will be rebuilt so as to accommodate over five hundred people. There will be approximately 325 seats on the west end and 135 on the east.

When the arena is completed, it will be close to 2,400.

Dodson Leads Tam O'Shanter

Pro Golf's Gambler Claps 7 Off Par In Richest Meet

CHICAGO, Sept. 5.—(AP)—Professional golf's story-telling "gambler"—fast shooting, fast talking Leonard Dodson, of Kansas City—did a record-smashing job as he stole the show Thursday in the opening act of the year's richest championship—the \$11,000 Tam O'Shanter open.

Dodson, the 39-year-old Missourian, whose look-alikes are legendary in the sport, came in with a blazing 68. It gave him the first-round lead by five strokes and the competitive record for the Tam O'Shanter lay by five strokes.

This 68 was seven under par built on nines of 31, five under regulation figures and 34, two under par.

Dodson's great job gave him a two-shot edge on Byron Nelson, of Toledo, former national open and P.G.A. champion, whose 67 was one stroke out of nines of 34-33.

Nelson, one of the field's hot favorites, had an eagle, four birdies and one bogey on his round. At 66 was bad Johnny Bull of Chicago who had 34 shots on each nine.

Dick Mott of Chicago and Earl Ralph Guldahl were among the 66 shooters. Clark Wood had 71, while Ben Hogan had money winner of the round, wound up with a 73, one under par. Vic Ghetti, the P.G.A. champion, was one of the 70 shooters.

Edgerton rounds will be played daily through Sunday's final set. First money is \$2,000, with 30 cash awards over a long list.

U.S. Tennis Halted By Rain

NEW YORK, Sept. 5.—(AP)—The sixth day's program of the United States singles tennis championships was washed out Thursday by a steady rain that allowed no signs of establishing during the afternoon. Quarter-final matches in the men's and women's divisions to be completed today and the finals were set for Sunday.

CUTIES By E. Simms Campbell

"Oh, but he's a wonderful instructor! I can't keep my mind on a thing when I'm in his class."

Regina Battles League Champions

WINNIPEG, Sept. 5.—(CP)—Two old rivals of prairie football, Regina Roughriders and Winnipeg Blue Bombers, opened the 12-game Western Conference schedule tonight under floodlights and coach Reg Threlfall, of Bombers predicts "a wide open race" until the final bell.

Bombers, western champion the past four years, established themselves as powerful contenders for a fifth straight title in two pre-season exhibition games with Columbia-Built, American professional League Champions.

Roughriders and the Union's third team, Vancouver Grizzlies, have yet to show their wares. Coach Dean Griffing of "Riders has expressed confidence in strength of his line but his Dean says his backfield is a "doubtful quantity."

WATCH GRIZZLIES

Vancouver is in the union for the first time but Grizzlies acquired Greg Kabat, former Winnipeg and Wapatoan University star, as coach and Kabat, invariably a pessimist, has gone so far as to say his team "will open the eyes of the other clubs. Grizzlies took the place of Calgary Bronks who quit the union last year."

Don't the radio and the young man was reported as signed to broadcast the Michigan football game this fall, and a later report said something had happened to the young prospect, as was. That's a local project worth possibly a \$100,000.

Sports . . . Roundup
By SID FEDER
(Pitch-hitting for Eddie Riccio)
NEW YORK, Sept. 5 (AP)—The sports writers are letting loose a terrific battle against the new pitching rule in United States professional football. "The Pros used to be in the All-star game here and Chicago, and showed just how much they loved the rule," said one writer. "The rule is the rule, but the writers are the writers."

Violent Winds Hit Twin Cities

MINNEAPOLIS, Sept. 5 (AP)—Violent winds gusting to 70 miles an hour, ripped through the Minneapolis-St. Paul area Thursday, leaving one man dead, a nine-year-old boy missing and feared downed power lines and trees to be a danger to motorists.

Carl Anderson, machinist at the Soo Line railway's Shoshone shop in Minneapolis, died in a hospital of a crushed chest and head injuries.

Anderson and about 40 other workers were injured when a nine-year-old boy was killed and a nine-year-old girl was injured when a power line fell on them.

Heavy rain and lightning accompanied the wind. Trees were uprooted, automobiles overturned, communications disrupted and many structures damaged. At the Soo line shop 150 railroad cars were damaged.

Daylight Time in East All Winter
MONTREAL, Sept. 5 (CP)—The daylight saving time will be continued during the winter months in the provinces of Ontario and Quebec, Power Controller H. J. Symington announced Thursday.

By keeping the clocks ahead an hour, we saved 14,000 horsepower in the two provinces last winter,"

Cyprus Reinforced During Past Weeks

CAIRO, Sept. 5 (CP)—The British Eastern Mediterranean fleet of Cyprus, which has about 50 ships off the Turkish coast, is strategic in the defense of the Levant and the Suez Canal, has been heavily reinforced and fortified in the past few weeks, it was disclosed today.

The disclosure came with return to his Cairo headquarters of Gen. Sir Claude Auchinleck, commander-in-chief in the Middle East, from an extensive aerial inspection of the British and Allied forces holding Syria, Palestine and Cyprus.

Down Six Italians
VALETTA, Malta, Sept. 5 (CP)—Six Italian planes were shot down in flames over Malta yesterday, and three others so badly damaged that they probably did not reach home, the British command announced.

Judge Removed
VICHY, Sept. 5 (AP)—Judge Paul Dider, 62-year-old Paris magistrate who refused Wednesday to swear allegiance to Marshal Pétain under a new constitutional act of the Vichy government, was removed from the bench today.

British Disperse Iran Rebel Bands
SIMLA, India, Sept. 5 (CP)—British troops in the Kermanshah area in southern Iran have dispersed some bands of soldiers led by rebel officers and the situation within the country is quiet, an official announcement said today.

Some machine guns and considerable quantities of rifles have been handed over,"

Husband, Wife Given Awards For Bravery

LONDON, Sept. 5 (CP)—Harry Broadbent and his wife, Amelia, were awarded the British Empire Medal today for their rescue of three Royal Air Force fliers from a crashed plane.

The aircraft fell on the Broadbent farm at night and they braved two fire storms of the flaming wreckage only to discover the flier runner trapped in the wreckage.

Broadbent got an axe and worked an hour and a half in intense heat and despite explosions of gas tanks and ammunition to free the flier.

His wife assisted him in the rescue of the flier.

VICHY, Sept. 5 (AP)—A member of the Italian armistice commission, W. Petrucci, died Thursday, bringing to 14 the death toll of a Marseille-Toulouse airline crash on Monday.

water, 1 cup; salt, 1/2 tsp.; vinegar, 1/2 cup; and vinegar) in a saucepan. Strain and measure. Add wheat to boiling and add the consistency of honey.
Mold. Unmold on crisp curls, ripe olives, BEST MAYONNAISE and hot biscuits.

Favors: Starchy fillings are not used in Best Foods Real Mayonnaise—only freshly broken eggs, with added egg yolks, vinegar, spices and "fresh press" salad oil. Best Foods Real Mayonnaise, with all its creamy tempting goodness, is part of the salad, not a mere dressing.

Modern War Hits Another Fabled Land

A British mobile anti-aircraft unit manned by Indian troops.

General Wavell

Indian troops like those above led the British drive into oil-rich Iran under Gen. Archibald Wavell, commander-in-chief for India. First big joint Russian-British military action came after Shah Riza Kahn refused to expel all German specialists entrenched in storied Iran.

Shah Riza Kahn

Captain Lord Louis Mountbatten, cousin of King George and commander of H.M.S. Illustrious, airplane carrier, is shown inspecting the three feline mascots of that ship in an unnamed United States port. The mascots are held by seamen Glynn Ellis, centre, and Tom Demmerly, right. The Illustrious has been in dock undergoing repairs.

BROOKLYN BLITZ—A bit of London was transplanted to Brooklyn, N.Y., at least in appearance and effect. Lightning struck gas main during severe thunder storm and blasted a goody bit of pavement heavenward, trapping a car in pit and setting gas fumes ablaze.

England's Feminine Farmers

Out of office and shop have come young women to aid in harvesting one of the largest wheat fields in Britain, at Sussex Downs. Fields cover 5,000 acres of once derelict ground. Here a pair of volunteers pause for a chat.

Meet blond, blue-eyed Betty Gordon, 18, of Garden City, L.I., New York, and sometime ago, North Carolina. You'll probably be reading a lot about her, for she's just been selected as No. 1 Glamour Girl of 1941 by New York's junior cafe socialites. She weighs 100 lbs., is 5 feet 1 1/2 and has four filled teeth. And, oh yes, artist Peter Arno got in the picture, too.

Fancy Nancy

Twenty-year-old Grace De Witt, who will represent New York City in the contest to select "Miss America" in the Atlantic City beauty pageant to open shortly.

Gotham Beauty

Maybe 15-year-old RKOrbful Nancy Gates from Denton, Tex., climbs ladders the hard way to improve her posture, but this fancy of Nancy's doesn't make a bad picture either.

U.S. Fighters On The Road To Mandalay

Modern American fighter planes are now pouring into Burma, where they are being assembled to help Chinese Air Force guard the Burma Road. Above, one of first pictures shows U.S. ground staff and test pilots at Rangoon helping Chinese in assembly

☆☆☆

☆☆☆

Prime Minister W. L. Mackenzie King, and Ident-Gen. A. G. L. McNaughton, G.O.C., Canadian Corps, are shown as they attended the Canadian Overseas Sports, which brought together some of Canada's outstanding athletes who are now serving in England.

Unhappy Landings

Ancient Burma prepares for modern parachute troop invasion by studding airfields with razor-pointed, fire-hardened bamboo sticks guaranteed to discourage most intrepid spottles of New Order.

Fast Action On Louisiana Front

Dungaree-clad U.S. motorcycle soldier on manoeuvres makes striking picture as he leaps from his machine and fires automatic rifle at strafing plane. "Enemy" bullets didn't get him, as it's all part of Third Army war games in Louisiana.

It was hot at the "Cootie Parade" which enlivened the opening of the Veterans of Foreign Wars Convention in Philadelphia, so, to make the story short, Bugler George Melvin of Baltimore, above, discarded most of his clothes. But a veteran's pride compelled him to wear his service decorations, stuck on with adhesive tape.

YOURS FOR A LITTLE

BY LOUISE HOLMES

CHRISTIE BROOKS had dreamed of a restaurant chain when she and her husband, Mr. Brooks, had just started the first of their three businesses before her father had died. When her mother is to see, Christie is to marry NANA, a steady boy. Today she has met GRAY TALBOT, a young man who has returned to eat at the restaurant. Christie is a little nervous, but she is not afraid to talk. When they are alone, Christie says to her mother, "I am planning to marry Sam because he is a dependable fellow, not a romantic." Christie is a little nervous, but she is not afraid to talk.

CHAPTER FOUR
JOHN BROOKS had made his way to the stair door. He hurried to his crutches. Christie hurried to him, lifting her face to be kissed. For an instant she burrowed her curly, coppery nest into his shoulder. Her chest pressed hard on her hair.

"It's all right, honey," he whispered. Sam lolled on the back of his head.

"How do you like it?" Sam asked. "What? Oh, the budget—it's all right, Sam—it's fine," Christie answered blantly.

rock, a cigar pointed upward. He said, "Goodnight, Mr. Brooks." They heard his slow progress up the stairs.

TEARS
Christie turned back, eyes bright with tears. She moved restlessly about the room, folding the card table, straightening chairs, fluffing pillows. As she passed Sam he caught her wrist, pulling her down to his knees. She sat stiffly upright, hands folded in her lap. He continued to smoke.

"What was that Talbot got here?" he demanded.

"I don't know. He dropped in for dinner. Father liked him—he's just stayed."

"Seems like he might have changed his clothes before making a social call."

"He was on his way home from work. It came over her that she had no idea where Gray's home might be. So little she knew about him—so very little and so very much."

"A common laborer," Sam said scornfully.

"By choice," Christie reminded him.

"He's putting down his cigar. Sam pulled her into his arms. She lay tensely unresponsive, holding herself away from him. "So your father is off to the hospital," he mused. "He tells me your mother is getting too. What are they doing with the restaurant?"

"Mom has a buyer for the fixtures."

"A baby?" Christie asked. "The question was prompted by the hand of fortune. It had a strange effect on her. Horrified eyes on Sam's broad face, she actually cried."

"He said seriously, 'Give me the paper. I'll make a fund for a baby.' He frowned, frowning away. 'That does it about 1944.'"

Christie laughed. She laughed until she cried. Things to count on—the clock, laughing and crying. Sam waited helplessly until the mild hysteria came to an end. The stretch of her imagination was utterly beyond him. Too solid to appreciate her swift changes of mood, he did not try.

A BABY
"Would a baby be a rainy day?" The question was prompted by the hand of fortune. It had a strange effect on her. Horrified eyes on Sam's broad face, she actually cried."

"He said seriously, 'Give me the paper. I'll make a fund for a baby.' He frowned, frowning away. 'That does it about 1944.'"
